

T-MARBLE

BESPOKE DESIGN

Marble meets design

T-marble is a new brand, but one with a story as old as time. One retold here in the veins of ancient marble married with an uncommon elegance.

Invest in T-marble and you invest in our many years' experience in marble processing, now reborn as a creative quest in home design.

Artisans in our Turin factory blend craft and passion in a joyous celebration of creativity, sensitivity, and understanding of the material.

So you enjoy intricate interwoven textures and materials that make each space yours, and yours alone.

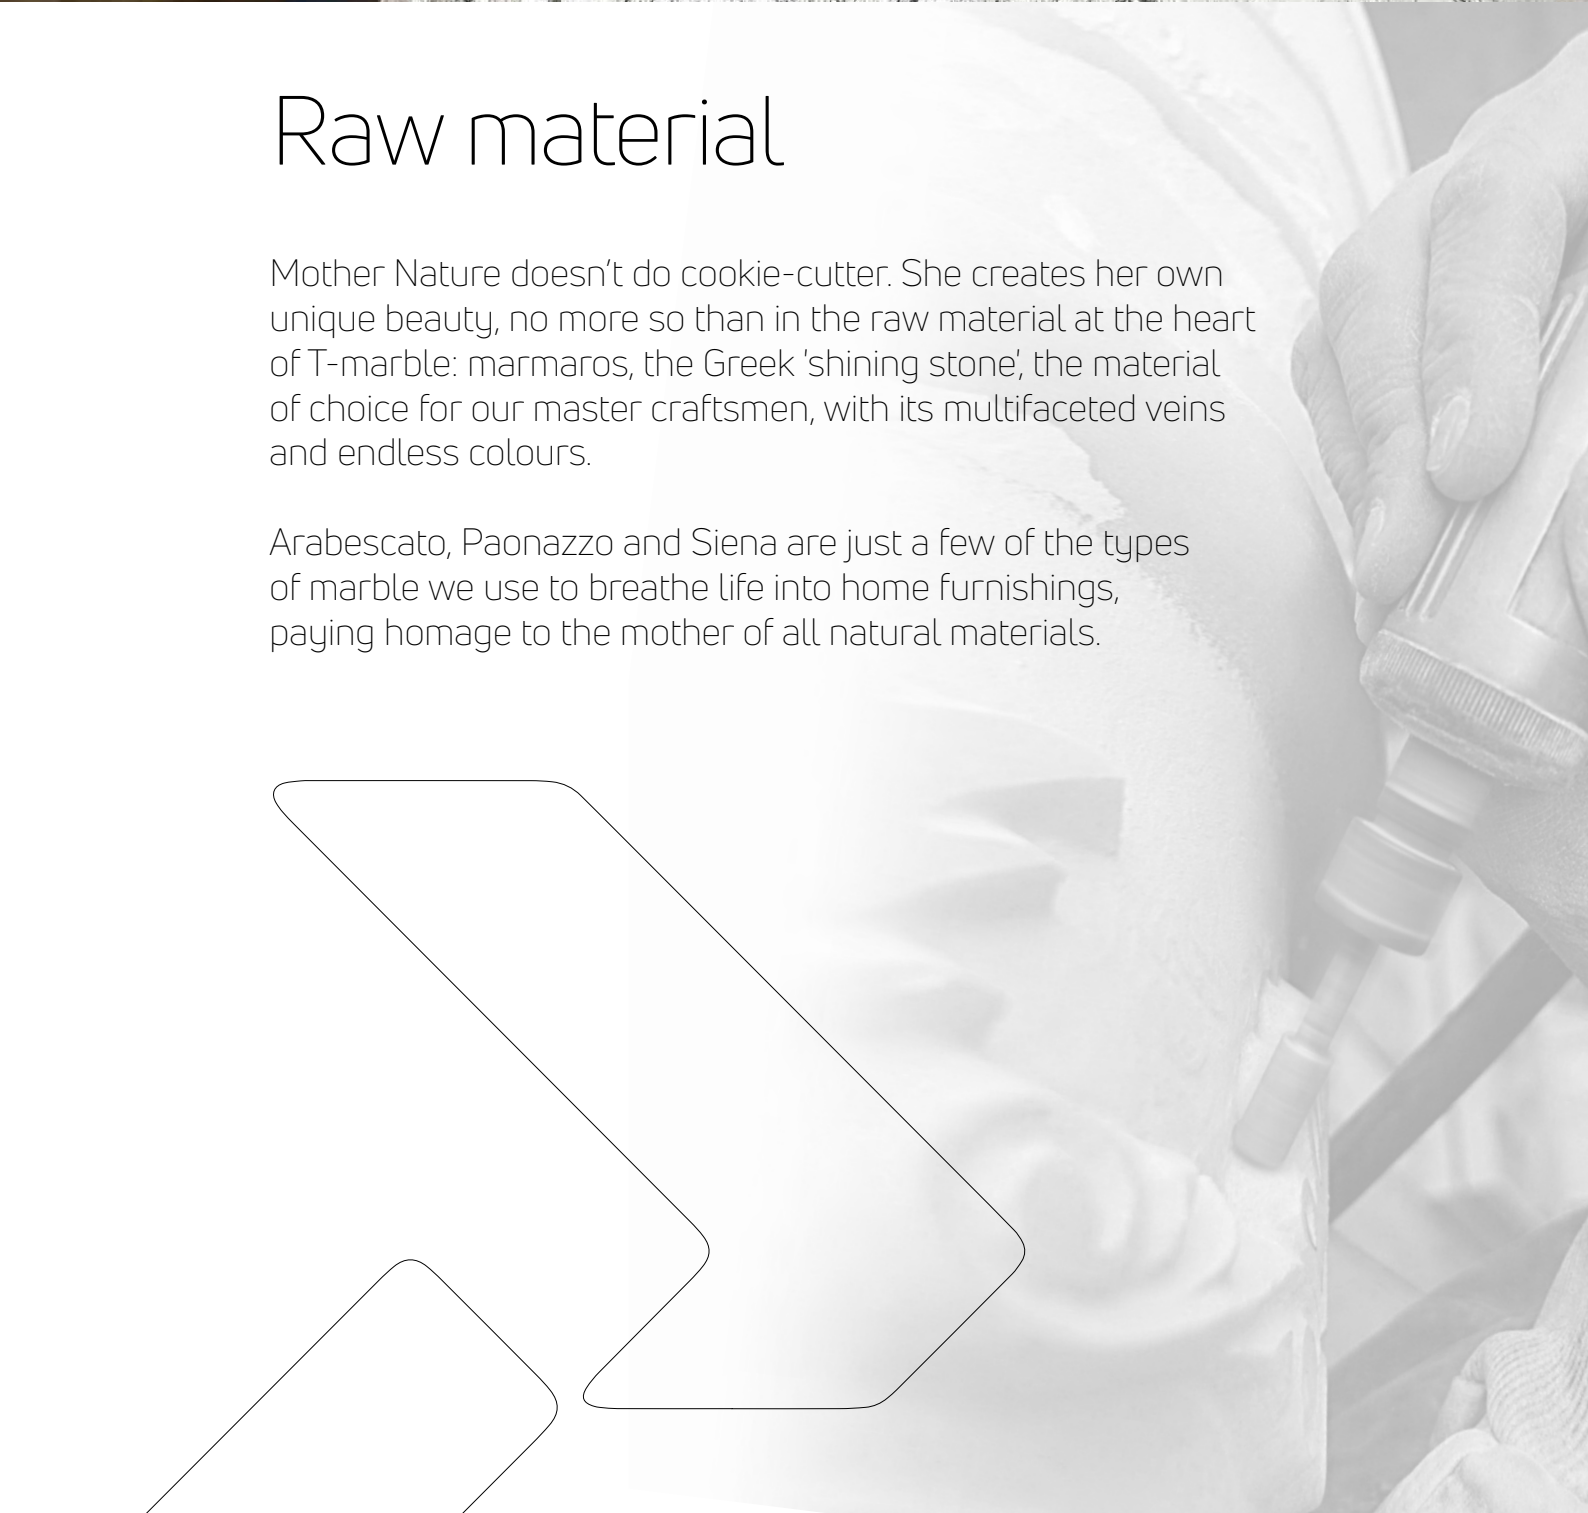

Raw material

Mother Nature doesn't do cookie-cutter. She creates her own unique beauty, no more so than in the raw material at the heart of T-marble: marmaros, the Greek 'shining stone', the material of choice for our master craftsmen, with its multifaceted veins and endless colours.

Arabescato, Paonazzo and Siena are just a few of the types of marble we use to breathe life into home furnishings, paying homage to the mother of all natural materials.

Design

Italy's taste for beauty and expression runs throughout the centuries like marbling through rock. This is the cradle of Baroque and Neoclassicism and the home of Da Vinci, Raphael and Michelangelo.

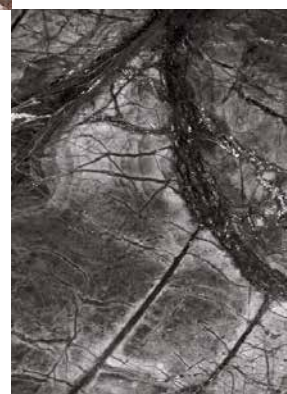

That tradition continues through T-marble's craftsmanship, use of technology, and passion for detail. We create unique contemporary objects that live in harmony with your world.

Where unique comes bespoke

You're like no one else. So shouldn't your home be, too?
Exclusive and unique are the hallmarks of our creations,
plus a bespoke approach that's all you.

T-MARBLE 
BESPOKE DESIGN

Shaping the future

This is where imagination takes shape, with washbasins and design pieces destined to become icons of the T-marble brand.

T-solid: where geometry meets poetry

T-wave: elegant, feminine, harmonious

T-square: adaptable and versatile

T-oval: mythical and mysterious

T-polygon: contemporary, practical beauty

T-artwork: let your imagination loose

This is the 2022 collection by T-marble. Crafted from the finest natural marble, our design objects make the everyday remarkable.

T-solid | **WASHBASIN**

T-solid gives you geometric rigour
made beautiful with all the tones
of the chromatic scale.

Form and function co-exist here
in a balanced expression
of art and design.

T-MARBLE
BESPOKE DESIGN

T-wave | **WASHBASIN**

The endless, timeless wash of the ocean comes in waves. Water softens the material strength of marble in this washbasin, but doesn't dilute its emotional power. The marble surrenders to sculptural mastery, in an item that's at once eternal and contemporary.

T-MARBLE
BESPOKE DESIGN

T-square | **WASHBASIN**

The square offers stability, perfection, and rigidity, but its appeal goes beyond simple visual grammar. Here, the concreteness of marble enriches the T-square washbasin with a universe of emotion that's as old as the hills. And yet the soft lines give it a contemporary soul, combining hard functionality with exquisite taste.

T-oval | **WASHBASIN**

An ancient myth interprets the Earth as an oval, with an egg its primordial source. T-oval takes this symbol as its vital principle and adds alchemy through natural stone. The mysteries of the Earth are too great to be expressed in words. So let's use marble.

T-polygon | **WASHBASIN**

There's something diamond-like about the corners and the density of the material. And yet the proportions of the shape soften its image.

The principles of harmonious contrast make the T-polygon unique.

Slender and elegant, this washbasin is an emblem of contemporary design that never forgets it has a job to do.

T-artwork | **DESIGN OBJECTS**

Take a trip into the wild and vivid world of marble sculpture. Born from the hands of skilled craftsmen, these T-marble Limited Editions each recount their own story. They're told through artistic mastery, imagination, and a deep understanding of the material.

*A work of art,
to be such, must be
able to convey an emotion,
a thought, irrespective
of its nature and by whatever
medium.*

T-join|TABLE

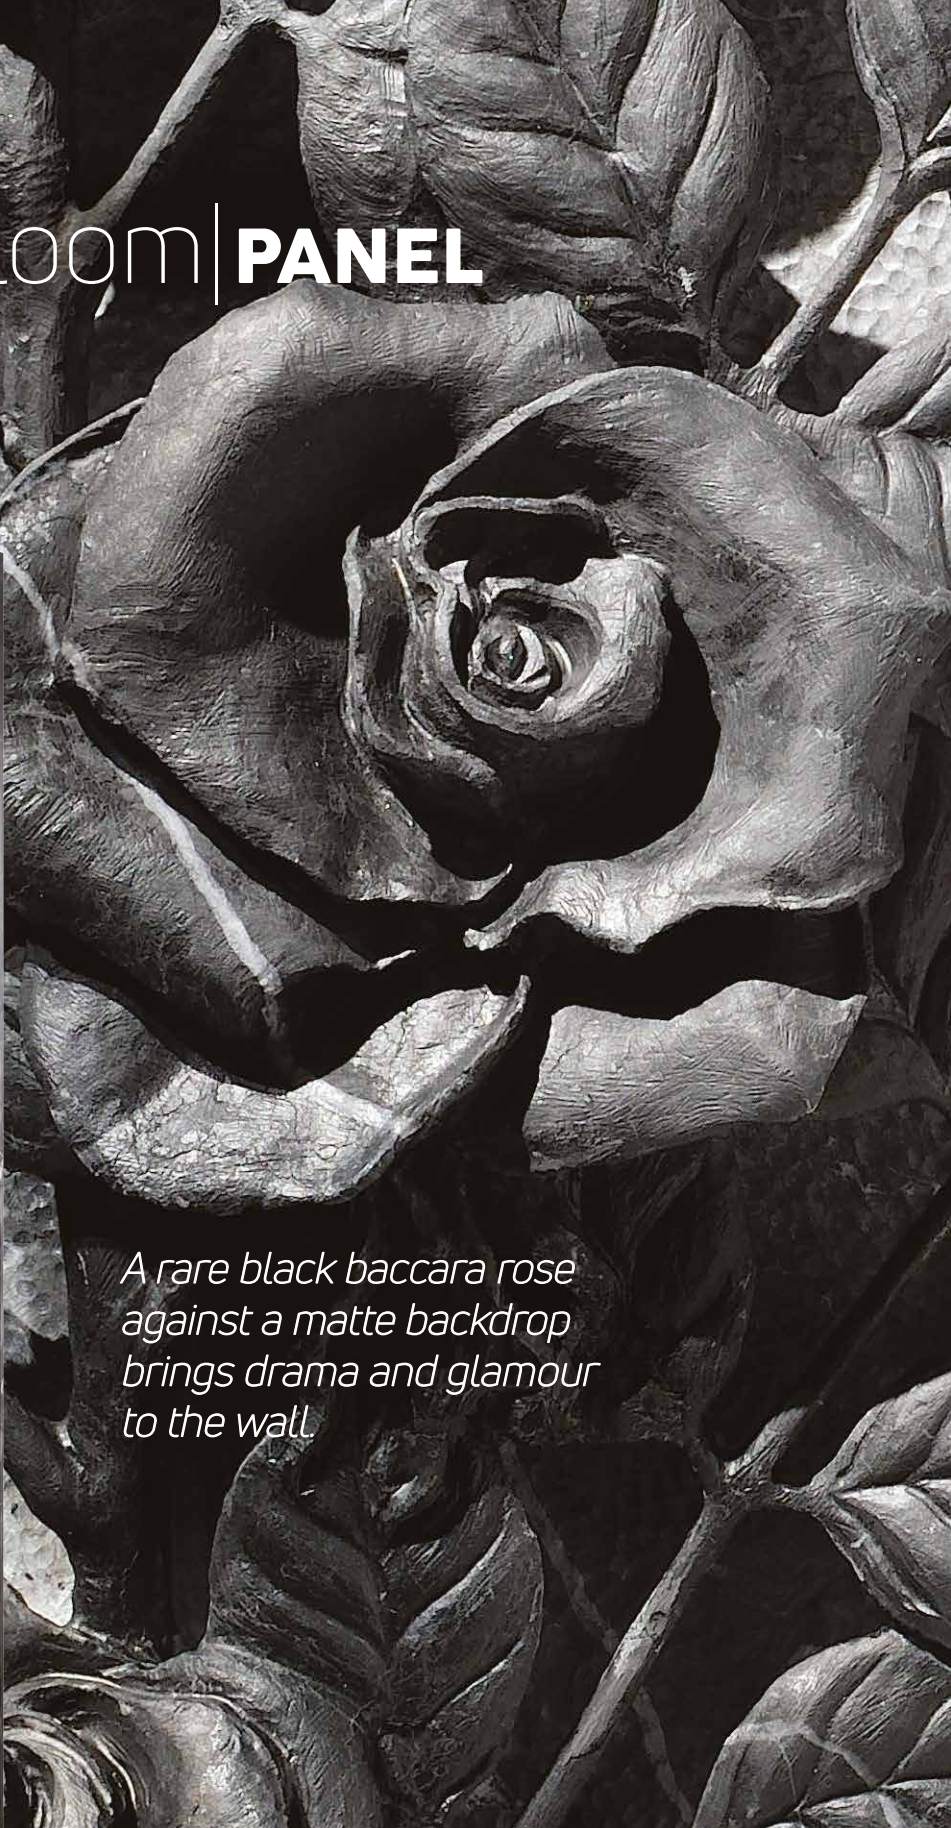

Elegance springs from unity

Crafted from Calacatta marble, Italian walnut wood and glass. Three diverse materials merge to revolutionise a traditional format

and add contemporary beauty to points of sale, offices, and homes. Just add coffee. Or wine.

T-bloom|**PANEL**

*A rare black baccara rose
against a matte backdrop
brings drama and glamour
to the wall.*

Cultivate conversation

Moulded in Marquina black marble with a shiny veneer, our rose offers a lustrous, velvety effect that's sure to cultivate conversation.

T-run | **SCULPTURE**

Our artist picked up a single piece of marble,
the black Marquina, and ran with it.
We bring marble architecture to the everyday, forcing you to look
past simple visual deception and simply admire.

Just a shoe?

T-run is 40 cms of exquisite craftsmanship,
hewn by hand only from marble.
There's patience and rigorous application
in every 'asola', every weave.

Two shades of grey offer a customised finish
and the golden foil highlights the brand,
the heart of this artistic provocation.
This is far more than just a shoe.

T-cork|SCULPTURE

When is a cork not a cork?
When it's created entirely from marble. Suspend your disbelief.

Cork reimagined as art

There's the suggestion of porosity in the Roman Travertine at the base of this sculpture. The resin-filled inscriptions cement the idea that this is truly cork. But this is a champagne cork reimagined as art.

Choose your own date and design, commemorate an anniversary, and pop a real cork or two.
